WIRELESS TELECOMMUNICATIONS BUREAU ACTION
REGION 46 (WYOMING) PUBLIC SAFETY REGIONAL PLANNING COMMITTEES
ANNOUNCE
700 MHz REGIONAL PUBLIC SAFETY PLANNING MEETING
AND
800 MHz REGIONAL PUBLIC SAFETY PLANNING MEETING
(PR Docket 91-59)

The Region 46 (Wyoming) Regional Planning Committees announce two public safety planning meetings. On Monday, November 13, 2006, the Region 46 700 MHz Regional Planning Committee will hold its meeting in conjunction with the Annual Wyoming Association of Public Safety Communications Officials (APCO) meeting from 2:00 p.m. until 3:30 p.m. at the Holiday Inn on The River, 300 West F Street, Casper, Wyoming.

- The purpose of this meeting is to review the draft Region 46 (Wyoming) 700 MHz Regional Plan to ensure that it meets the needs of the 700 MHz spectrum users including public safety, public health, emergency management and utility services.

Immediately following the 700 MHz meeting, the Region 46 (Wyoming) 800 MHz Regional Planning Committee will convene its planning meeting beginning at 3:30 p.m. until 4:30 p.m.

- The purpose of this meeting is to review the progress of the 800 MHz band transition in Wyoming.

Both of the Region 46 Public Safety Planning Committee meetings are open to the public. All eligible public safety providers whose sole purpose or principal purpose is to protect the safety of life, health, or property in Region 46 would utilize these frequencies. It is essential that not only public safety, but all government, Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's Rules be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate and represent your agency's needs.

All interested parties wishing to participate in the planning for the use of the public safety spectrum in the 700 MHz and the 800 MHz bands are encouraged to attend. For further information about the meetings, please contact:

Mark Joiner, 700 MHz Chairman, and
Interim 800 MHz Chairman
